

MACH Energy

Mount Pleasant Operation

The MACH Energy Mount Pleasant Operation has quickly, yet methodically nurtured a culture that focuses upon strong engagement with its people and those who live in the community in which we intend to operate.

MACH Energy's people continue to apply expertise in mining, engineering, community, procurement, project & construction management to deliver high standards throughout the life of our projects.

This will be achieved by MACH Energy adhering to its social and environmental commitments while making continuous improvements to ensure productivity targets are achieved.

Local Supplier Strategy

Strong relationships with our local business partners are essential as we establish ourselves as committed, long term members of the Muswellbrook business community. We will work collaboratively with new and existing suppliers to drive innovation and build capability to achieve our local supplier strategy objectives.

To this end, it is the objective of procurement to achieve value for money and maximise supplier performance in procurement activities to assist MACH Energy in achieving its corporate objectives.

Becoming a MACH Energy supplier

MACH Energy requires our suppliers to embrace and comply with our Policies and Procedures, with all new suppliers required to complete vendor pre-qualification.

If your business is interested in becoming a supplier of goods or services to MACH Energy, please register your interest by emailing info@machenergyaustralia.com.au

Please include a profile of the products or services offered by your business and how it meets local content objectives.

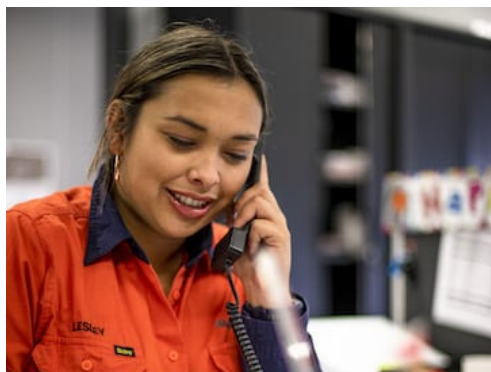

Local procurement

Ensuring our mining operations benefit local communities is central to MACH Energy's vision and values and we facilitate the fulfilment of this commitment by giving preference to suppliers who demonstrate either local supply and or local content.

For local content, the order of preference is for Muswellbrook-based, followed by Upper Hunter-based suppliers, Singleton, Newcastle and New South Wales.

Purchases

Suppliers are issued a purchase order to authorise the provision of goods and services, at a stated specification, quantity and price. Purchase orders apply the relevant standard Terms and Conditions, unless expressly stated on the purchase order.
